DBMNE0529 - DEVELOPMENT OF A NEW MINERAL RESOURCE ACCOUNTING SYSTEM

DESCRIPTION:

Debmarmine Namibia requires the development of a new and fully integrated Mineral Resource Accounting System (MinRAS) to manage all the mineral resource information and replace the existing system. The MinRAS is a system designed to manage the information of all mineral resource blocks. The MinRAS system to be developed requires functionality including (but not limited to) importing, updating, reclaiming, factorising, depleting, reconciling and reporting of resource changes. The system must allow for seamless integration into the Debmarine Namibia spatial database management system (ArcGIS). It should allow for the full migration of the existing resource blocks into the new system, including the full audit trails. Furthermore, the system must be developed to be fully aligned to the company IT architecture and database management system requirements.

SYSTEM DEVELOPMENT COMPETENCIES REQUIRED:

The service provider must be able to demonstrate:

1. A successful track record in delivering IT technical solutions of reasonable scale and complexity within the mineral resource management or related domains.
2. Adequate project management, project qualifications, experience, controls, systems and processes for successful project delivery of IT technical solutions.

DOCUMENTS TO SUBMIT:

1. Company Profile with a focus on project management capabilities, highlighting at least 3 similar IT solutions with contactable references using industry accepted project management methodologies.
2. CV's of Technical Personnels' highlighting relevant proficiency in C#, .NET Framework and Microsoft SQL, technical industry-specific certifications like Microsoft, Cisco, etc. and case studies of relevant technical work.
3. High level project plan which illustrates how the intended outcomes will be delivered effectively and within scope. This should include key strategies for quality control and risk mitigation.
4. Post-Implementation Support Strategy showing duration and scope of support after project completion.
5. A high-level cost estimate to deliver the outcome as described, including all relevant components.

CLOSING DATE: 17 October 2025 at 12:00.
